#### Hazardous components which must be listed on the label:

Molybdenum trioxide, reaction products with bis[O,O-bis(2-ethylhexyl)] hydrogen dithiophosphate

Amines, C11-14-branched alkyl, monohexyl and dihexyl phosphates

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

If inhaled

: Remove person to fresh air. If signs/symptoms continue, get medical attention. Keep patient warm and at rest.

| <b>OKS 30</b>  |                              |   |  |

### **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions | <ul> <li>Evacuate personnel to safe areas.</li> <li>Use personal protective equipment.</li> <li>Ensure adequate ventilation.</li> <li>Do not breathe vapours or spray mist.</li> <li>Refer to protective measures listed in sections 7 and 8.</li> </ul> |
|----------------------|--|
|                      |  |

#### 6.2 Environmental precautions

| Environmental precautions | : | Do not allow contact with soil, surface or ground water.<br>Prevent further leakage or spillage if safe to do so.<br>If the product contaminates rivers and lakes or drains inform<br>respective authorities. |
|---------------------------|---|---|
|---------------------------|---|---|

## 6.3 Methods and material for containment and cleaning up

| Methods for cleaning up | : | Contain spillage, and then collect with non-combustible       |
|-------------------------|---|---|
|                         |   | absorbent material, (e.g. sand, earth, diatomaceous earth,    |
|                         |   | vermiculite) and place in container for disposal according to |
|                         |   | local / national regulations (see section 13).                |

#### 6.4 Reference to other sections

For personal protection see section 8.

## **SECTION 7: Handling and storage**

7.1 Precautions for safe handling

| Version<br>4.0  | Revision Date:<br>01.04.2025          |   | e of last issue: 31.01.2025<br>e of first issue: 12.07.2017 | Print Date:<br>01.04.2025   |

#### **10.6 Hazardous decomposition products**

No decomposition if stored and applied as directed.

### **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Acute toxicity

Based on available data, the classification criteria are not met.

#### Product:

| Acute oral toxicity       | : | Remarks: This information is not available. |
|---------------------------|---|---|
| Acute inhalation toxicity | : | Remarks: This information is not available. |
| Acute dermal toxicity     | : | Symptoms: Redness, Local irritation         |

#### **Components:**

# Molybdenum trioxide, reaction products with bis[O,O-bis(2-ethylhexyl)] hydrogen dithiophosphate:

| Acute dermal toxicity | : | Symptoms: Redness, Local irritation |
|-----------------------|---|-------------------------------------|
|-----------------------|---|-------------------------------------|

#### Amines, C11-14-branched alkyl, monohexyl and dihexyl phosphates:

| Acute oral toxicity   | : | LD50 (Rat): > 5.000 mg/kg<br>Method: OECD Test Guideline 401   |
|-----------------------|---|--|
| Acute dermal toxicity | : | LD50 (Rat): > 2.000 mg/kg<br>Method: OECD Test Guideline 402<br>Assessment: The substance or mixture has no acute dermal<br>toxicity |

#### Distillates (petroleum), hydrotreated heavy naphthenic; Baseoil - unspecified:

| Acute oral toxicity       | : | LD50 (Rat): > 5.000 mg/kg<br>Method: OECD Test Guideline 401<br>GLP: yes   |
|---------------------------|---|--|
| Acute inhalation toxicity | : | LC50 (Rat): > 5,53 mg/l<br>Exposure time: 4 h<br>Test atmosphere: dust/mist<br>Method: OECD Test Guideline 403<br>GLP: yes<br>Assessment: The substance or mixture has no acute<br>inhalation toxicity |
|                           |   |  |

Acute dermal toxicity : LD50 (Rabbit): > 5.000 mg/kg

#### Respiratory or skin sensitisation

#### Skin sensitisation

May cause an allergic skin reaction.

#### Respiratory sensitisation

Based on available data, the classification criteria are not met.

#### Product:

Remarks

: This information is not available.

#### Components:

# Molybdenum trioxide, reaction products with bis[O,O-bis(2-ethylhexyl)] hydrogen dithiophosphate:

| Assessment | : | The product is a skin sensitiser, sub-category 1B. |
|------------|---|--|
| Result     | : | The product is a skin sensitiser, sub-category 1B. |

#### Amines, C11-14-branched alkyl, monohexyl and dihexyl phosphates:

| Species    | : | Guinea pig   |
|------------|---|--|
| Assessment | : | Did not cause sensitisation on laboratory animals. |
| Result     | : | Did not cause sensitisation on laboratory animals. |

#### Distillates (petroleum), hydrotreated heavy naphthenic; Baseoil - unspecified:

| Species    | : | Guinea pig                         |
|------------|---|------------------------------------|
| Assessment | : | Does not cause skin sensitisation. |
| Method     | : | OECD Test Guideline 406            |
| Result     | : | Does not cause skin sensitisation. |

#### Germ cell mutagenicity

Based on available data, the classification criteria are not met.

#### Product:

| Genotoxicity in vitro | : | Remarks: No data available |
|-----------------------|---|----------------------------|
| Genotoxicity in vivo  | : | Remarks: No data available |

#### 12.3 Bioaccumulative potential

#### Product:

Bioaccumulation : Remarks: No data available

#### **Components:**

Molybdenum trioxide, reaction products with bis[O,O-bis(2-ethylhexyl)] hydrogen dithiophosphate:

Partition coefficient: n- : log Pow: > 4 octanol/water

#### Amines, C11-14-branched alkyl, monohexyl and dihexyl phosphates:

| Partition coefficient: n- | : log Pow: 1,74 - 11,61 |
|---------------------------|-------------------------|
| octanol/water             |                         |

#### 12.4 Mobility in soil

| Product:   |   |                            |
|--|---|----------------------------|
| Mobility   | : | Remarks: No data available |
| Distribution among<br>environmental compartments | : | Remarks: No data available |

#### 12.5 Results of PBT and vPvB assessment

#### Product:

| Assessment | : | This substance/mixture contains no components considered  |
|------------|---|---|
|            |   | to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher. |

#### **Components:**

| Distillates (petroleum), hydr | otro | eated heavy naphthenic; Baseoil — unspecified:              |
|-------------------------------|------|---|
| Assessment                    | :    | Non-classified PBT substance. Non-classified vPvB substance |

#### **12.6 Endocrine disrupting properties**

| Product:   |  |
|------------|--|
| Assessment | : The substance/mixture does not contain components<br>considered to have endocrine disrupting properties according<br>to REACH Article 57(f) or Commission Delegated regulation<br>(EU) 2017/2100 or Commission Regulation (EU) 2018/605 at |

levels of 0.1% or higher.

|         | 4.0 01.04.2025 Date of first issue: 12.07.2017<br><b>12.7 Other adverse effects</b> |                                | 01.04.2025                |  |

#### Product:

| Additional ecological information | : Harmful to aquatic life with long lasting effects.     |
|-----------------------------------|--|
| Components:                       |  |
| Molybdenum trioxide, rea          | action products with bis[0,0-bis(2-ethylhexyl)] hydrogen |

| dithiophosphate:                  |   |   |
|-----------------------------------|---|---|
| Additional ecological information | : | May cause long lasting harmful effects to aquatic life. |

## **SECTION 13: Disposal considerations**

| 13.1 Waste treatment methods |  |
|------------------------------|--|
| Product :                    | The product should not be allowed to enter drains, water<br>courses or the soil.<br>Do not dispose of with domestic refuse.<br>Dispose of as hazardous waste in compliance with local and<br>national regulations. |
|                              | Waste codes should be assigned by the user based on the application for which the product was used.  |
| Contaminated packaging :     | Packaging that is not properly emptied must be disposed of as<br>the unused product.<br>Dispose of waste product or used containers according to<br>local regulations.   |
|                              | The following Waste Codes are only suggestions:  |
| Waste Code :                 | unused product<br>13 02 06*, synthetic engine, gear and lubricating oils   |
|                              | uncleaned packagings<br>15 01 10*, packaging containing residues of or contaminated<br>by hazardous substances   |
