SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier Product name	:	OKS 2571
1.2 Relevant identified uses of t	he s	substance or mixture and uses advised against
Use of the Substance/Mixture	:	Corrosion inhibitor
Recommended restrictions on use	:	Restricted to professional users.
1.3 Details of the supplier of the	e saf	ety data sheet
Company	:	OKS Spezialschmierstoffe GmbH Ganghoferstr. 47 82216 Maisach-Gernlinden Deutschland Tel.: +49 8142 3051 500 Fax: +49 8142 3051 599 info@oks-germany.com
E-mail address of person responsible for the SDS	:	mcm@oks-germany.com
National contact	:	

1.4 Emergency telephone number

Emergency telephone	:	+34 91 562 04 20
number		

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

	Classification (REGULATION (EC) No 12	272/2008)		
Aerosols, Category 1		H222: Extremely flammable aerosol. H229: Pressurised container: May burst if heated.		
	Skin irritation, Category 2	H315: Causes skin irritation.		
	Eye irritation, Category 2	H319: Causes serious eye irri	tation.	
	Specific target organ toxicity - single	H336: May cause drowsiness	or dizziness.	
		1 / 33	a brand of	

Version	Revision Date:	Date of last issue: 19.09.2024	Print Date:
1.1	04.04.2025	Date of first issue: 19.09.2024	04.04.2025

exposure, Category 3, Central nervous system

Long-term (chronic) aquatic hazard, Category 3

H412: Harmful to aquatic life with long lasting effects.

2.2 Label elements

Labelling (REGULATION (EC) Hazard pictograms :	No 1272/2008)	!
Signal word :	Danger	
Hazard statements :	H222 H229 H315 H319 H336 H412	Extremely flammable aerosol. Pressurised container: May burst if heated. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness. Harmful to aquatic life with long lasting effects.
Precautionary statements :	Prevention: P210 P211 P251 P261 P264 Storage:	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Avoid breathing mist. Wash skin thoroughly after handling.
	P410 + P412	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/ 122 °F.

Hazardous components which must be listed on the label:

butanone

acetone

n-butyl acetate

Version	Revision Date:	Date of last issue: 19.09.2024	Print Date:
1.1	04.04.2025	Date of first issue: 19.09.2024	04.04.2025

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 4: First aid measures

4.1 Description of first aid measures

If inhaled	 Call a physician or poison control centre immediately. Remove person to fresh air. If signs/symptoms continue, get medical attention. Keep patient warm and at rest. If unconscious, place in recovery position and seek medical advice. Keep respiratory tract clear. If breathing is irregular or stopped, administer artificial respiration.
In case of skin contact	: Take off all contaminated clothing immediately. Wash off immediately with soap and plenty of water.

	-	ate medical attention and special treatm	ent needed		
rea	tment	: Treat symptomatically.			

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media	:	ABC powder
Unsuitable extinguishing media	:	High volume water jet

5.2 Special hazards arising from the substance or mixture

: Fire Hazard
Do not let product enter drains.
Contains gas under pressure; may explode if heated.
Beware of vapours accumulating to form explosive

Version 1.1	n Revision Date: 04.04.2025		e of last issue: 19.09.2024 e of first issue: 19.09.2024	Print Date: 04.04.2025

5.3 Ad	vice for firefighters			
	pecial protective equipment r firefighters	: :	In the event of fire, wear self-cont Use personal protective equipmen decomposition products may be a	nt. Exposure to
Fu	urther information	:	Standard procedure for chemical Collect contaminated fire extinguis must not be discharged into drain Cool containers/tanks with water s	shing water separately. This s.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

•	
Personal precautions	 Evacuate personnel to safe areas. Ensure adequate ventilation. Remove all sources of ignition. Do not breathe vapours or spray mist. Do not breathe dust/ fume/ gas/ mist/ vapours/ spray. Refer to protective measures listed in sections 7 and 8. Only qualified personnel equipped with suitable protective equipment may intervene.
6.2 Environmental precautions	
Environmental precautions	 Do not allow contact with soil, surface or ground water. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
6.3 Methods and material for conta	ainment and cleaning up
Methods for cleaning up	 Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal. Non-sparking tools should be used.

6.4 Reference to other sections

For personal protection see section 8.

Version	Revision Date:	Date of last issue: 19.09.2024	Print Date:
1.1	04.04.2025	Date of first issue: 19.09.2024	04.04.2025

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling :	Do not use in areas without adequate ventilation. Do not breathe vapours or spray mist.
	In case of insufficient ventilation, wear suitable respiratory
	equipment.
	Avoid contact with skin and eyes.
	For personal protection see section 8.
	Keep away from fire, sparks and heated surfaces.
	Smoking, eating and drinking should be prohibited in the application area.
	Wash hands and face before breaks and immediately after
	handling the product.
	Do not get in eyes or mouth or on skin.
	Do not get on skin or clothing.
	Do not ingest.
	Do not use sparking tools.
	These safety instructions also apply to empty packaging which may still contain product residues.
	Pressurized container: protect from sunlight and do not
	expose to temperatures exceeding 50 °C. Do not pierce or
	burn, even after use.
Hygiene measures :	Wash face, hands and any exposed skin thoroughly after handling.
7.2 Conditions for safe storage, incl	uding any incompatibilities
Requirements for storage :	BEWARE: Aerosol is pressurized. Keep away from direct sun
areas and containers	exposure and temperatures over 50 °C. Do not open by force
	or throw into fire even after use. Do not spray on flames or
	red-hot objects. Store in accordance with the particular
	national regulations.
7.2 Specific and use(a)	
7.3 Specific end use(s)	

Specific use(s) : Specific instructions for handling, not required.

SECTION 8: Exposure controls/personal protection

8.2 Exposure controls

Engineering measures

Use only in an area equipped with explosion proof exhaust ventilation. Handle only in a place equipped with local exhaust (or other appropriate exhaust).

Personal protective equipment

Eye/face protection	:	Safety glasses with side-shields
Hand protection Material Break through time Protective index	: : :	butyl-rubber > 10 min Class 1
Remarks	:	Wear protective gloves. The break through time depends amongst other things on the material, the thickness and the type of glove and therefore has to be measured for each case. The selected protective gloves have to satisfy the specifications of Regulation (EU) 2016/425 and the standard EN 374 derived from it.
Skin and body protection	:	Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.
Respiratory protection	:	Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines.
Filter type	:	Recommended Filter type:
		Organic gas and low boiling vapour type (AX)
Protective measures	:	The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.
Environmental expective cor		

Environmental exposure controls

Air	:	Should not be released into the environment.
Soil	:

Sublima	ation point	:	No data available	

SECTION 10: Stability and reactivity

10.1 Reactivity

No hazards to be specially mentioned.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions : No dangerous reaction known under conditions of normal use.

Version 1.1	Revision Date: 04.04.2025	Date of last issue: 19.09.2024 Date of first issue: 19.09.2024	Print Date: 04.04.2025
	litions to avoid itions to avoid	: Heat, flames and sparks. Strong sunlight for prolonged periods. Risk of receptacle bursting.	
Mater	npatible materials ials to avoid	: Oxidizing agents	
10.6 Haza	rdous decompositio	n products	

No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity		
Based on available data, the	classification criteria are not met.	
Product:		
Acute oral toxicity	: Remarks: Effects due to ingestion may include:	
	Symptoms: Central nervous system depression	
Acute inhalation toxicity	: Remarks: Respiration of solvent vapour may cause dizzines	ss.
	Symptoms: Inhalation may provoke the following symptoms Respiratory disorder, Dizziness, Drowsiness, Vomiting, Fatigue, Vertigo, Central nervous system depression	:,
Acute dermal toxicity	: Symptoms: Redness, Local irritation	
Components:		
butanone:		
Acute oral toxicity	: LD50 (Rat): 2.193 mg/kg Method: OECD Test Guideline 423 GLP: yes	
Acute inhalation toxicity	: LC50 (Rat): 34 mg/l Exposure time: 4 h Test atmosphere: vapour	
Acute dermal toxicity	: LD50 (Rabbit): > 5.000 mg/kg Method: OECD Test Guideline 402

Respiratory or skin sensitisation

Skin sensitisation

Based on available data, the classification criteria are not met.

Respiratory sensitisation

Based on available data, the classification criteria are not met.

Product:

is not available.
1

Components:

butanone:

Test Type :	Buehler Test
Species :	Guinea pig
Assessment :	Does not cause skin sensitisation.
Method :	OECD Test Guideline 406
Result :	Does not cause skin sensitisation.
GLP :	yes

n-butyl acetate:

Test Type :	Maximisation Test
Exposure routes :	Dermal
Species :	Guinea pig
Assessment :	Does not cause skin sensitisation.
Method :	OECD Test Guideline 406
Result :	Does not cause skin sensitisation.

zinc powder — zinc dust (stabilised):

Species	:	Guinea pig
Assessment	:	Did not cause sensitisation on laboratory animals.
Method	:	OECD Test Guideline 406
Result	:	Did not cause sensitisation on laboratory animals.
GLP	:	yes

dimethyl ether:

Assessment	:	Does not cause skin sensitisation.
Result	:	Does not cause skin sensitisation.

aluminium powder (stabilised):

Species	:	Guinea pig
Assessment	:	Did not cause sensitisation on laboratory animals.
Result	:	Did not cause sensitisation on laboratory animals.

11.2 Information on other hazards

Endocrine disrupting properties

Product:

Assessment	 The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.
Further information	
Product:	
Remarks	 Risks of irreversible effects after a single exposure. Ingestion causes irritation of upper respiratory system and gastrointestinal disturbance. Possible risk of irreversible effects.

SECTION 12: Ecological information

12.1 Toxicity

Product:		
Toxicity to fish	:	Remarks: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Toxicity to daphnia and other aquatic invertebrates	:	Remarks: No data available
Toxicity to algae/aquatic plants	:	Remarks: No data available

SECTION 13: Disposal considerations

13.1 Waste treatment methods	
Product :	Do not dispose of with domestic refuse. Dispose of as hazardous waste in compliance with local and national regulations.
	Waste codes should be assigned by the user based on the application for which the product was used.
Contaminated packaging :	Packaging that is not properly emptied must be disposed of as the unused product. Offer empty spray cans to an established disposal company. Pressurized container: Do not pierce or burn, even after use.
	The following Waste Codes are only suggestions:
Waste Code :	unused product, packagings not completely emptied 16 05 04*, gases in pressure containers (including halons) containing hazardous substances

Note T Note U (Table 3)	:	This substance may be marketed in a form which does not have the physical hazards as indicated by the classification in the entry in Part 3. If the results of the relevant method or methods in accordance with Part 2 of Annex I of this Regulation show that the specific form of substance marketed does not exhibit this physical property or these physical hazards, the substance shall be classified in accordance with the result or results of this test or these tests. Relevant information, including reference to the relevant test method(s) shall be included in the safety data sheet. When put on the market gases have to be classified as "Gases under pressure", in one of the groups compressed gas, liquefied gas, refrigerated liquefied gas or dissolved gas. The group depends on the physical state in which the gas is packaged and therefore has to be assigned case by case. The following codes are assigned: Press. Gas (Comp.) Press. Gas (Liq.) Press. Gas (Ref. Liq.) Press. Gas (Diss.) Aerosols shall not be classified as gases under pressure (See Annex I, Part

ADN - European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways; ADR - Agreement concerning the International Carriage of Dangerous Goods by Road; AIIC - Australian Inventory of Industrial Chemicals; ASTM - American Society for the Testing of Materials; bw - Body weight; CLP - Classification Labelling Packaging Regulation; Regulation (EC) No 1272/2008; CMR - Carcinogen, Mutagen or Reproductive Toxicant; DIN -Standard of the German Institute for Standardisation; DSL - Domestic Substances List (Canada); ECHA - European Chemicals Agency; EC-Number - European Community number; ECx -Concentration associated with x% response; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx -Concentration associated with x% growth rate response; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA -International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China; IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO -International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; n.o.s. - Not Otherwise Specified; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; RID -Regulations concerning the International Carriage of Dangerous Goods by Rail; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; SVHC - Substance of Very High Concern; TCSI - Taiwan Chemical Substance Inventory; TECI - Thailand Existing Chemicals Inventory; TRGS - Technical Rule for Hazardous Substances; TSCA - Toxic Substances Control Act (United States); UN - United Nations; vPvB - Very Persistent and Very Bioaccumulative

Further information

Classification of the mixture:		Classification procedure:
Aerosol 1	H222, H229	Based on product data or assessment
Skin Irrit. 2	H315	Calculation method
Eye Irrit. 2	H319	Calculation method
STOT SE 3	H336	Calculation method
Aquatic Chronic 3	H412	Calculation method

Relevant changes compared to the last edition are highlighted at the left margin. This version replaces all previous editions.

This safety data sheet applies only to products as originally packed and labelled. The information contained therein may not be reproduced or modified without our express written permission.
