

# **OKS 1110**

# **Multi-Silicone Grease**

## Description

Highly adhesive transparent silicone grease for fittings, seals and plastic parts.

## **Applications**

- Sealant and lubricant for cold and hot-water valves in vehicle heating systems or cooling circuits and for ground seals on glass taps and desiccators
- Lubrication of O-rings and rubber seals for assembly and during operation
- · Lubrication of plastic parts

#### **Branches**

- Catering equipment and food processing technology
- · Shipbuilding and marine technology
- Logistics
- · Chemical industry
- · Paper and packaging industry
- · Iron and steel industry
- · Rail vehicle technology
- · Glass and foundry industry
- Municipal services
- · Plant and machine (tool) engineering
- · Rubber and plastic processing

# Advantages and benefits

- · NSF H1 registered
- Tasteless and odourless
- Highly effective due to excellent adhesion on all materials
- Neutral behaviour with regard to plastics and elastomers
- · Completely EPDM-compatible
- High long-term stability without drying out, hardening or bleeding
- Resistant to cold and hot water, as well as acetone, ethanol, ethylene glycol, glycerine and methanol
- MOSH/MOAH-free (as per recipe)

### **Application tips**

Clean the lubricating points well for optimal effect. Apply the grease evenly and thinly to the functional surfaces with a brush, spatula, etc. Avoid excesses. In as far as available, observe the machine manufacturer's instructions. Assess the lubrication frequency and quantity on basis of service conditions. Only mix with suitable lubricants. Caution: Plastic based on silicone, such as silicone rubber can be attacked by silicone grease. Silicone grease may not be used at sliding points under pure oxygen influence.

• 5 kg Hobbock

• 25 kg Hobbock
